Auto Mayors statement on GM holding firm on its plant closure in Oshawa

The Auto Mayors are deeply disappointed General Motors (GM) is moving ahead with its decision to close its Oshawa assembly plant by the end of the year.

Viable solutions for continued operations beyond 2019 at the Oshawa plant need to be explored to ensure the success of Canada's economic future.

All levels of government and stakeholders should be working collaboratively to protect and strengthen Canada's automotive sector.

Expanding our automotive base in new innovative areas should be among our nation's priorities.
