Auto Mayors statement on Ontario’s auto sector plan

The Auto Mayors strongly support the Ontario government’s renewed commitment to strengthening the competitiveness and innovation of our automotive industry.

Under its [*Driving Prosperity: The Future of Ontario’s Automotive Sector*](#), the Government of Ontario plans to invest more than \$40 million in the auto sector, including funding for innovation and training over the next three years.

We look forward to seeing the plan unfold, reducing business costs and taxation while supporting research and development and early stage technology development.

We believe the plan is a critical step forward to ensuring a sustainable, thriving auto sector that stimulates growth, innovation and good, high-paying jobs.

About the Auto Mayors:

The Auto Mayors work collaboratively at the provincial and federal levels to promote awareness, advocacy and strategic policy initiatives to strengthen the Canadian economy by keeping the automotive sector strong as a driver of employment, innovation and productivity advances across the Canadian economy so we can afford to look after all our needs as a society such as infrastructure creation and renewal.
